

UV-C Saltwater

The Blue Lagoon Saltwater is especially developed for disinfection of saltwater. Therefore, the purifier is besides chlorinated water also very suitable for salt- and seawater pools.

Advantages of the Blue Lagoon UV-C Saltwater

- Made in the Netherlands
- A built-in electronic ballast to ensure a smooth power supply
- Especially developed for saltwater pools
- Philips T5 Smart Cap lamp included
- PVC-housing
- UV-C rays reduce bound chlorine
- Easy installation and maintenance
- Including adapters Ø 63mm to Ø 50mm, 1½" female threaded

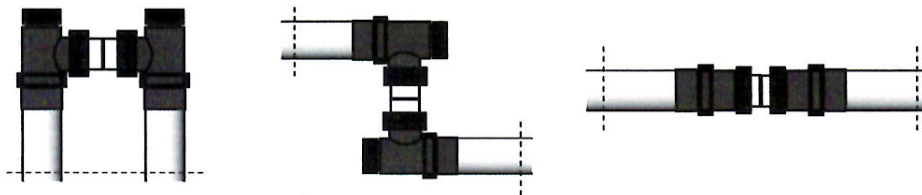

Operation

The Blue Lagoon UV-C Saltwater is especially developed for saltwater and seawater pools (salt electrolysis). Thanks to the special white PVC-housing the salt has no corrosive influence. The device comes with a high-frequency transformer. This transformer minimizes current fluctuations

to protect the lamp. With the Blue Lagoon Saltwater UV-C you can disinfect your water in an efficient and save way. The result is an excellent water quality. The union at the bottom allows 360° connection flexibility. This is ideal for corner installations, or for combination with other lamps.
